

# Deicer Pre-Season Fluid Heater Service Kit

Our pre-season heater service kit provides everything you need to properly prepare the fluid heater in your JBT deicer for the winter deicing season.

For optimal heater performance and reliability of your deicer heater, we've included all of the normal wear parts that should be replaced seasonally, and a new offering from JBT: Sootomagic™ soot sticks – important in removing carbon buildup on the heater coils. Carbon buildup is a normal by-product of the heater combustion process, and as it accumulates on the heater coils, heater efficiency decreases exponentially – if not properly addressed, carbon buildup can also become a fire hazard.

Servicing your deicer heater now - before deicing season starts - can help ensure reliable deicer service this winter season.

Included in the JBT Deicer Pre-Season Fluid Heater Service Kit:

- Burner Fuel Nozzles
- Ignition Electrodes
- Spinners
- Fuel Solenoid Valves
- High-pressure Fuel Filter
- Flame Sensor
- Sootomagic™ Soot Sticks
- Ignition Wires (except Trump 2000 model)

**Order your kit today!**

Unit	P/N
Trump 2000 Deicer with Gas Heater:	624-4424-035
Trump 2000 Deicer with Diesel Heater:	624-4424-036
Trump 2000-II Deicer with Gas Heater:	624-4424-037
Trump 2000-II Deicer with Diesel Heater:	624-4424-038
LMD or Tempest Deicer with Diesel Heater:	624-4424-039
