

SICK S3000 Laser Scanner

Model S30A-6011BA (JBT Part 3116-200-241)

Used to help keep your AGVs safe, the SICK S3000 laser scanner casts a larger detection field than other models. As a result, it offers robust obstacle recognition, enabling the AGV to stop safely. This crucial piece of technology provides the foundation of an AGV's safety and has a dramatic impact on the day-to-day operation of your facility.

Features & Benefits

Large detection field that enhances safety

Scanning area apatable to speed and location

Detection fields programmed for your facility

One of few safety-rated scanners on the market

Complies with AGV safety standards
