## LFS-Series Water Collection Tank With Skimmer

The LFS-Series Distribution Tank & Skimmer from Prime is an effective solution for removing solids and skimming fat from water, either as part of a re-circulation & re-use system, or for water destined for off-site treatment. With a skimmer/conveyor system to remove surface fats and residues, the system pairs well with Prime Equipment Group LFS-Series filters for a complete water recirculation & re-use system. Prime offers available Master Control Panels for complete water re-use systems, including remot HMI's and ethernet capabilities

AIR DIFFUSION FLOATS PARTICULATE TO SURFACE, WHERE SKIMMER SYSTEM REMOVES SOLIDS AND FAT FROM WATER  
CONVEYER VFD ADJUSTS DWELL  
PUMP PROTECTION, ANTI-OVERFLOW AND MAKE-UP WATER SENSORS

### PRIME ROI:

SAVE WATER AND GO GREEN: PART OF A COMPLETE WATER RE-CIRCULATION & RE-USE SYSTEM WHEN PAIRED WITH PRIME DE-WATERING SCREENS AND LFS-SERIES FILTERS
