

OmniBluTM

Smart Insights. Connected Care.

OmniBlu is more than a digital platform; it is a suite of digital tools backed up by a *True-Blue* commitment to real-world service and support. It's about taking the motto *We're with you right down the line* into a new digital era, as a partner by your side. There are multiple key areas that cause stress/friction in your lives, and OmniBlu is JBT's way to make those as frictionless as possible.

**ENHANCED EXPERIENCE
DOING BUSINESS WITH JBT:**

OmniBlu's Frictionless Parts & Service provides a seamless experience to find the right part, get to the right tech support, and deliver parts and service on your schedule.

**PROACTIVE MAINTENANCE
OPERATIONS:**

OmniBlu's Maintenance Manager enables the switch from a reactive to proactive approach through real-time connectivity & diagnostics, easy to follow preventive maintenance, inspection schedules, and training.

**OPTIMIZED FOOD PRODUCTION
OPERATIONS:**

OmniBlu gives you the tools for process monitoring, and predictive analytics with reports and dashboards to get the most throughput and maintain the highest quality.

PREPARE

PROACTIVE MAINTENANCE

OmniBlu's Maintenance Manager enables proactive maintenance through easy-to-follow preventive maintenance plans, diagnostics, inspections, and training.

- The OmniBlu platform's preventive maintenance schedule provides you with a comprehensive list of time-based and unit-based maintenance schedules with detailed PM kits for the job.
- Regular inspection visits by our trained service staff means you stay ahead of surprise breakdowns.
- The OmniBlu platform provides access to clear training and user guides for your staff, allowing them to complete the task correctly the first time.
- The OmniBlu platform actively monitors strategically placed sensors throughout your equipment, allowing our AI tools and experienced staff to proactively identify upcoming maintenance needs. Smart alerts are proactively generated to inform you in advance of predicted maintenance events.

RESPOND

PARTS & SERVICE AT YOUR FINGERTIPS

JBT will be there when you need us with rapid response service, critical parts, and first-class technical support. Our Frictionless Parts & Service portal allows you to easily find the right part for your machine every time.

- JBT is investing in customer-specific parts safety stock and trained technical support, ensuring part availability and priority service.
- Our Frictionless Parts & Service portal allows you to digitally find the right parts for your machines by easily navigating through the machine manual to find the parts you need, and order on the spot.

OPTIMIZE

DIGITAL TOOLS & INSIGHTS

JBT isn't only there to keep your equipment running; with OmniBlu's Machine Performance & Machine Vision features, we offer cutting-edge digital tools, optical sensors, and AI-driven insights to optimize your production and overall equipment efficiency.

- OmniBlu combines different technologies that monitor machine health & performance in real-time. These inputs are analyzed by our AI tools and can provide immediate feedback to your operations allowing you to maximize production and minimize down time.
