

Endura-Fresh™ 8000

Maximizing the citrus packer's value in domestic & export markets

JBT introduces **Endura-Fresh™ 8000**, a carnauba coating for citrus that maximizes packer value in the domestic and export markets. Manufactured without morpholine and other amines, **Endura-Fresh™ 8000** is specially formulated for shine and gas exchange. Our extensive formulation expertise, rigorous QC program, and state-of-the-art blending facilities allow us to consistently produce only the highest quality carnauba coatings.

Endura-Fresh™ 8000 provides superior protection for citrus by allowing better fruit respiration reducing anaerobic conditions that cause off-flavors, rind pitting, and other associated disorders. This coating has exceptional fracture and whitening features, as well as dehydration control properties from the packinghouse to the market. It is a low foaming product that can be applied in the packinghouse over a wide range of conditions and application rates.

Product Features & Benefits

- ✓ Export quality shine
- ✓ Superior gas exchange
- ✓ Controls postharvest pitting
- ✓ Maximized flavor retention
- ✓ Durability over numerous sweat cycles
- ✓ Outstanding coverage properties
- ✓ Fast drying
- ✓ Packhouse friendly; easy to clean
- ✓ High quality, stable emulsion

For additional information on Endura-Fresh™ 8000 and other postharvest citrus products, call your JBT sales representative today.
