

SASB Response

This disclosure marks JBT's first response to the SASB Industrial Machinery and Goods standard. At this time, we are offering information on topics identified by SASB in this industry and will explore if there are relevant metrics from other industries within the Resource Transformation sector in the following years.

Topic	Accounting Metric	Code	2021 Disclosure
Energy Management	(1) Total energy consumed	RT-IG-130a.1.(1)	305,106 gigajoules ESG Report > Operations > Energy and Emissions
	(2) percentage grid electricity	RT-IG-130a.1.(2)	44.9% ESG Report > Operations > Energy and Emissions
	(3) percentage renewable	RT-IG-130a.1.(3)	1.45% ESG Report > Operations > Energy and Emissions
Employee Health and Safety	Total recordable incident rate (TRIR)	RT-IG-320a.1. (1)	0.79
	Fatality rate	RT-IG-320a.1. (2)	0
	Near miss frequency rate (NMFR)	RT-IG-320a.1. (3)	294.2 near misses per 100 employees working a full year
Fuel Economy & Emissions in Use-phase	Sales-weighted fleet fuel efficiency for medium- and heavy-duty vehicles	RT-IG-410a.1.	Not applicable as we do not manufacture medium- or heavy-duty on-road vehicles.
	Sales-weighted fuel efficiency for non-road equipment	RT-IG-410a.2.	Given the diversity of our products and applications in which they are used, as well as the lack of industry standards to estimate on a per unit of work basis, JBT does not calculate sales-weighted fuel efficiency or emissions in this manner. We continue to invest in research and development aimed at products that generate fewer direct emissions and provide telematics and iOPS which gives our customers instant access to performance data, including energy consumption. Read more about our efforts in the Sustainable Solutions section of our report. ESG Report > Sustainable Solutions
	Sales-weighted fuel efficiency for stationary generators	RT-IG-410a.3.	
	Sales-weighted emissions of: (1) nitrogen oxides (NOx) and (2) particulate matter (PM) for: (a) marine diesel engines, (b) locomotive diesel engines, (c) on-road medium- and heavy-duty engines, and (d) other non-road diesel engines	RT-IG-410a.4.	
Materials Sourcing	Description of the management of risks associated with the use of critical materials	RT-IG-440a.1.	
Remanufacturing Design & Services	Revenue from remanufactured products and remanufacturing services	RT-IG-440b.1.	Retrofits and refurbishments accounted for 21% of our environmentally beneficial product revenue in 2021. ESG Report > Sustainable Solutions > Extending Product Lifespan

Activity Metrics	Code	Disclosure
Number of units produced by product category	RT-IG-000.A	Recurring revenue accounted for 47% of our FoodTech total revenue and 38% of our AeroTech total revenue in 2021. We do not calculate a breakdown of sales by number of units.
Number of employees	RT-IG-000.B	Approximately 6,600
